

Senator Prescott S. Bush  
(Connecticut)

I have known him of and on for some sixteen to eighteen years starting when I taught his sons while at Andover. By no means are we intimate, but we have been on a first-name basis for a long time. He went to St. George's School where I was Headmaster after leaving Andover. In this post I went to him several times to discuss problems. He was always willing to see me, was cordial in his reception of me and very cooperative, and made a number of voluntary and substantial gifts to the School. I have seen him from time to time in Greenwich, Connecticut, where we have a number of mutual friends.

Although there is nothing close about our acquaintanceship, I am sure he would be willing to see me.
